

Annual Report+ 2020-21

It was an unprecedented year that changed the world in many ways. Thanks to the support of donors like you, St. Judes was able to provide care to children undergoing treatment for cancer and staying at our centres throughout the pandemic.

We are happy to share our work, activities and financials for the last year in our Annual Report 2020-21.

Collaborations & Partnerships

St. Judes' new vertical, St. Judes for Life (Founded in Memory of Mrs. Rani Vicaji) has been set up with the intention to support our survivors, thereby fulfilling the motto 'Once a St. Judes child, always a St. Judes child'.

Cancer survivors require a strong support system to help them become self-reliant and independent and make up for lost time and opportunities. To help them with the same St. Judes for Life (Founded in Memory of Mrs. Rani Vicaji) has collaborated with experienced partners and mentors. Due to the geographic distance and diversity of our survivors, the projects are conducted virtually through partners and experts in the areas of education, health, livelihood and life skills. Some of our partners include:

♥ Samiksha Foundation, Indian Cancer Society and Tata Memorial Hospital who support with academic assistance.

♥ In the field of livelihood, we are associating with ICICI Foundation, Pratham Institute and Yuva Parivartan.

♥ Meraki is enabling female survivors to learn a programming language and basic English Skills.

♥ Umeedein, our partner in Odisha, has undertaken family and school visits, conducted counselling sessions and provided referral services for our survivors in the state

♥ Lumiere Business Solutions and DataOgram provide research and data obtaining solutions.

♥ Mrs. Payal Parikh, one of our long time well-wishers, donated money for welcome kits for our new enrollees.

Currently, around 421 children have enrolled with St. Judes for Life (Founded in Memory of Mrs. Rani Vicaji), out of which 80 have benefited from a combination of facilities provided by the programme. St. Judes for Life (Founded in Memory of Mrs. Rani Vicaji) is projected to cater to over 2000 survivors by 2025.

St. Judes In the News

One of our children, 16-year-old **Priti Nag**, not only beat cancer but also cleared her Class 10 SSC boards with flying colours, scoring a commendable 97.60 per cent.

The Financial Express featured her in a story about how cancer has an unseen impact on education.

Stories OF Hope

11-year-old Devraj Pande is from West Bengal. Earlier this year, he was diagnosed with bone cancer. He came to stay at The Premlata Vandnavan Shah Centre at our Cotton Green Campus while undergoing treatment at Tata Memorial Hospital, Mumbai.

Devraj is a cheerful boy who makes friends very easily at the centre. Curious by nature, he always tries to do something new. He does not let cancer come in the way of his creativity and passion. He loves taking photographs and participating in art and craft activities at the centre. We wish him a speedy recovery and a healthy life ahead.

Now more than ever, our cancer warriors need your help to support their battle against child cancer

With Love, St. Judes Family
